- Preconfigured and ready to use for web visualization, optimized for Saia PCD® controllers
- 10"/12"/15" colour TFT display with 16.7 million colours and touch control
- AMD Geode LX800 processor
- 2x Ethernet
- Without fan or hard drive

Web-Panels from the LX800 family with Windows CE and eXP (series PCD7.D51xxTL010 and PCD7.D61xxTL010) may also be obtained in the form of a practical wall mounting set. A total of 6 types are therefore available in display sizes from 10" to 15" – optionally with Windows CE or eXP – for easy mounting within buildings. The set is equally suitable for use with either drywall or solid wall construction. The Web-Panels' technical specification matches that of standard versions PCD7.D51xxTL010 and PCD7.D61xxTL010; only the internal slot for an added CFC compact-flash card has been omitted. Mechanical dimensions have been adapted to enable optimum installation within buildings.
