Display Problems in HMI-Editor Window

In the HMI Window of Toolbar buttons, the Label is not displayed for the Default system fonts, or the Toolbar is displayed in two Lines, hiding the first four lines of the object Element

🔗 HMI Editor - E:\Saia\Projekte\Tes	t\ISP200 Vorlage\D	isplay_20_D.hmi			_ _ _ _ _ _
File View Languages Options Help					
Menu Structure Objects	Status_Bars	O <u>bj</u> ect Attributes	Alarms	S <u>e</u> ttings	Internals
Lists New Ren. Import Delete Test Dbjects New Ren. Dupl. Delete Test	Edit Object Elemen New Inser Pelp 5 6 7 8 3	t Up Down	Copy Cut	Paste Delete	Alarms

To avoid this, the Default system fonts needs to be changed, using the procedure described below:

In Windows 7:

- Open Control Panel
 - Open "Personalization"

Display Properties	?×
Themes Desktop Screen Saver Appearance Settings	
	- 1
Inactive Window	
Active Window	
Normal Disabled Selected	
Window Text	
Massage Roy	
Message Text	
ОК	1
Windows and buttons:	
Windows Classic style	
Color scheme:	
Windows Standard	_
Font size: Effects	_
Normal Advanced	
OK Cancel Apply	,

Remark:

If the TAG "Appearance" isn't visible in this window (only 3 tags are showed) it is necessary to have Administrator right (contact the System Administrator to obtain more Rights).

- Click on "Windows Color" button, then
- Advanced Appearance Settings link to Open "Windows Color and Appearance Dialog like in Screenshot below:

/indow Color and	Appearance			
Inactive ¹	Window		<u> </u>	
Active \	Window		_ 0	×
Normal	Disabled Selected			
Window	w Text			
Messa	ge Box	×		
Message	e Text			-
	ОК			
To turn on Win here apply only Access theme. Item: Icon	dows Aero, select a W if you have selected t	indows theme. Col he Windows 7 Basic Size:	ors and sizes sele theme or an Eas Color 1: Col	ected se of or <u>2</u> :
Font:		Siz <u>e</u> :	Colo <u>r</u> i	
Arial		* 8 *	The second secon	

- Select "Icon" item then Change it to "Arial, size 8" or "Tahoma",8 then press "Apply" button

If the display doesn't match Your expectation, then change it again

In Windows XP

- Open Control Panel
- Open "Display Dialog"
- Click on "Appearance" Tab to Open it
- Click "Advanced Button" to Open Advanced Appearance, and Adapt the Font of "Icon" item like in Screenshot Below

Advanced Appearance	×
Inactive Window	
Normal Disabled Selected	
Window Text Message Box Message Text OK If you select a windows and buttons setting other than Windows Classic, it will override the following settings, except in some older programs.	
Item: Size: Color 1; Color <u>2</u> ;	
Icon 32 🗘 🗐	
Eont: Size: Color: Arial 8 V V B]
OK Cancel]

Note that in some cases, User cannot do it by himself, because of the restrictions in His Computer. In this case, he needs to contact the System Administrator to obtain more Rights.

In this Case, the "Appearance" Tab is missing from "Display Properties" Dialog Box!
